Phone: (909) 383-4631
(909) 383-6799 direct

Caltrans continues to go GREEN!

Caltrans continues to "Go Green". In our efforts to minimize the use of hard copy documents, Caltrans District 8 Public Affairs is asking our Media Partners to sign up for email alerts on the District 8 web page.

Under the "**CT Connect**" you can receive all Press Releases, Media Advisories and Commuter Alerts as soon as they are issued. Anyone can subscribe to the automated notification system to suit the needs of your agency/company. Please visit **www.Caltrans8.info**, click into "**News and Document Center**" and sign up to receive these alerts. Please use a valid email address, one that will ensure distribution of important traffic and highway project updates. It can be directed to individuals or a general email for your organization. The advantage of "CT Connect" is that you can sign up for project updates or news relating to your frequently traveled routes.

It is our goal to eventually eliminate the need to fax information to you. Our target date to phase out the fax machine is **October 15, 2008**. If you still prefer the notices by fax, please call Darin Cooke at (909) 383-6799 to discuss alternatives. If we do not hear from you, we will assume that you have subscribed to Ct Connect and your fax number will be cancelled. There will be a grace period to accommodate the transition. Thank you for your cooperation in preserving our environment.

Caltrans reminds you to **SLOW FOR THE CONE ZONE**.
